### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application is the inclusion of gears with teeth that are meshing for driving a shaft in a direction and driving a further shaft in an opposite direction by a flexible member in combination with the other specific limitations of the drive system as claimed. Note that the Newman et al patent, for example, drives both shafts with flexible members with no direct meshing of gear teeth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **EXAMINER'S AMENDMENT**
